

**Release Notes
PAWS WRTS
Version 01.34.04
31 July 2006**

1. Critical Items
2. Known Limitations
3. Enhancements.
4. Problem Reports

PR 06071 PRINTER resource loses its content when it executes a new module
If RTS was configured to direct all printer output to file "printer.txt", data started to
accumulate in the file; when a new module was executed, all data was cleared (lost). This
error is now fixed.
